Re: NICTD Double Track Project and Calumet Trail

Dear Nicole,

NIPSCO owns the property under the Calumet/Marquette Greenway Trail that is along the north side of the South Shore Line Double Track Project. We understand that the Double Track Project will need to move the Calumet Trail to the north at the S.R. 49 bridge by the Dune Park Train Station. The moving of the trail is for safety of the trail users and all traveling public. We agree that a 14-day closure of the trail is necessary for this proposed trail construction. We request a notice be provided to NIPSCO Survey and Land, Communications, Natural Resources Permitting and the general public a minimum of 30 days prior to trail construction. The communication and signage plan shall be coordinated with NIPSCO Communications and Porter County Parks prior to distribution, at the expense of NICTD.

NICTD understands that NIPSCO and Porter County Parks will need to update the existing trail license agreement prior to the construction for the relocation of the trail.

If you should have any questions, please do not hesitate to contact me.

Sincerely,

PHILLIP A. PATRICK, PLS
